

To Play on a Rainbow

by Kathy Klein

**Won't you come play on a rainbow with me
We could slip we could slide we could feel really free
We could dance we could march or play musical chairs
We could breathe all the colors we feel in the air
We could waltz over orange, red, green, yellow, and blue
There are so many ways to enjoy purple too
We could laugh, we could giggle, do cartwheels and more
Many colors to feel and feelings to explore
And when you start thinking that we'll soon be through
Let me show you the colors right under your shoe
It's magic fantastic a beautiful sight
We will flip through the rainbow as fast as the light
And just when you're ready to leave your new friend
Sit back and relax as we do it again
Cause nature made sure that rainbows never leave
The beauty remains within you and me**
